result:68%

Thirthahalli(t),Shivamoga(d)  
Expected Graduation, June  
2023

## PROFILE SUMMARY

---

Targeting Front End Developer roles with an organization of high reputewith a scope of improving knowledge and further career growth.

- (HTML,CSS,Javascript, React) with a strong background in building scalable web applications
- Demonstrated ability to manage and deliver projects efficiently, from initial planning and design to final deployment and maintenance.
- Committed to staying updated with the latest industry trends and technologies, continuously enhancing skills to provide innovative solutions

## PROJECTS

---

Academic Project: Gym Management System Project Description:

The Gym Management System is a software designed to help gyms and health clubs manage their members and memberships easily. It keeps records of members, tracks their fees and fitness plans, and allows for smooth communication between gym managers and members. The system also includes features for booking, sales, and generating reports to assist in managing the gym's daily operations.

**Technologies Used: HTML, CSS, PHP**

**Minor Projects:**

- **Netflix Clone**  
Created a simple clone of the Netflix website using HTML and CSS. The project focused on designing a visually appealing and responsive layout, replicating the front-end of Netflix.
- **E-Commerce Website**  
Developed a basic E-Commerce website using HTML, CSS, and JavaScript. The project involved creating a userfriendly interface with interactive elements like product listings and shopping cart functionalities.

**CERTIFICATION**

- 
- Completed the Web Development with HTML, CSS, and JavaScript Essentials certification through Coursera, issued by IBM on August 2, 2024.
  - Received an E-Certificate in How to CSS from Codekaro on August 31, 2024
